CHQR

October 18, 1972.

Mr. S.R. Morss,
R.3.,
Bradford, Mass. U.S.A.

Thank you for your reception report of October 9, 1972 , which I would like to confirm as correct.

CHQR operates on a frequency of 810 Kilocycles with a power of 10,000 watts, day and night. Night radiation is primarily North. The transmitter location is twelve miles South Southwest of Calgary City centre.

Our transmitter is a Continental Model 316 - C and operates into a four tower in-line array, four degrees East of North. Each tower is three hundred feet high with a spacing of 303.5 feet.

We appreciate reception reports such as yours and hope that you may tune us in again at some future date.

P.S. This is the first report that I have had from Mass. MBH.

Sincerely,

RADIO CHQR
